We strive to actively involve all stakeholders in our children's learning, helping to **achieve** the potential of each individual, developing confident and independent learners.

The school **believes** in high expectations with regard to manners, behaviour and courtesy to one another, promoting a safe, orderly and caring environment, underpinned by Christian **beliefs**.

The school **cares** for each child, encouraging self-motivation and independence within a framework of co-operation inspiring an overall thirst to learn.

We **care** about ourselves and others to create, support and maintain engaging learning and personal development through a broad, inclusive and well balanced curriculum. This delivers the knowledge, skills and understanding required now and for the future lives of our pupils.

Vision

Within five years to be able to offer an outstanding education to children from two to eleven years.

Outstanding, in terms of learning, environment and high levels of academic outcomes.

We will have skilled staff who inspire children's desire to learn in a meaningful way that will allow them to continue their learning journey into adult life with an ability to problem solve and apply their skills.

Our children will be mindful and encouraged to make positive choices that allow them to contribute to the local community and the broader society.
