GOODRICH CE PRIMARY SCHOOL

Health and Safety Policy

General Statement of Intent

The Goodrich CE Primary School (GOODRICH CE PRIMARY SCHOOL) believe that excellence in the management of Health and Safety is an essential element within its overall business plan – a good health and safety record goes hand in hand with high achievement in academic and quality standards.

People are the most important asset to this School, whether they are Staff members or pupils, therefore we are totally committed to ensuring their health, safety and welfare at all times.

From an economic point of view, the School believes that prevention is not only better, but cheaper than cure. There is no necessary conflict between humanitarian, educational and commercial considerations. Achievement and safety are not in competition.

On the contrary, safety is good academic business.

From a legal perspective, the School is committed to ensuring that it complies with all relevant health and safety legislation. Where it is reasonably practicable to do so, the School will strive to go beyond the requirements of legislation.

The School is committed to on-going monitoring and review processes, so that continual improvement in the management of health and safety can be achieved.

Our general intentions are:

- ✓ To provide adequate control of the Health and Safety risks arising from our School activities;
- ✓ To consult with our employees on matters affecting their Health and Safety;
- ✓ To provide safe plant and equipment;
- ✓ To ensure safe handling and use of substances;
- ✓ To provide information, instruction and supervision for employees and pupils;
- ✓ To ensure all employees are competent to do their tasks and to give them adequate training;
- ✓ To prevent accidents and cases of work related ill health;
- ✓ To maintain safe and healthy working conditions: and
- ✓ To review and revise this policy at regular intervals.
