

Topic at Goodrich CE Primary School

Throughout the year we explore a range of class topics that cover the non-core subjects of the National Curriculum. The topics are planned over a 3 year cycle in EYFS/KS1 and a 4 year cycle in KS2 and ensure a balance of themes to engage and interest the children.

The children have the opportunities to work independently, as part of groups, classes and key stages to develop their knowledge and understanding of Art & Design, History, Geography, Music and Design & Technology. Visits, projects and special theme days are planned that link to the topics to create meaningful experiences often with cross-curricular themes.

As part of our Music curriculum, Woodpeckers and Owls have weekly sessions with a specialist teacher from Encore as part of their Wider Opportunities programme. They learn a different instrument each term with opportunities to perform.
