Primary School Newsletter

Notices

- Please park considerately in the village and not on private property.
- The next transition day is next Thursday. Please speak to the relevant teacher before then if you have any concerns.
- We are very grateful for the support of the PTFA this year with the replacement of the Trim Trail. Sadly being wood it has a certain lifespan and we are reviewing and removing pieces before they become any risk to the children whilst trying to maintain as much as possible. The Summer Folly is coming up so as much support as possible from family and friends would be very much appreciated. I know the PTFA would welcome any help that can be offered or simply by bringing friends to enjoy and support the event.

What's Going On? (Please see ourschoolsapp.com for further information)

Class News

Superstars

Wrens	This week, we have been looking at the features of our new class story, 'The Snail and the Whale' and summarising each part in sentences. In Maths, year 1 have been estimating and measuring capacity and looking at different measurements of time. Reception children have been collecting data on favourite colours and fruit in the form of tally charts and pictograms. In our topic, we have been looking at different habitats and in R.E. we have been looking at different things we belong to.	Finley F, Thomas & Otis
Robins	This week, we have been writing our new class story, 'The Adventures of Captain Rosemary'. In Maths we have been learning about clockwise and anti-clockwise turns and following directions to find treasure. In Science we have been exploring how animals are adapted to live in their environment. We have also finalised and decorated the letters we wrote to Wampa School in Uganda.	Lucas, Noah, Eliona
Woodpeckers	In Maths, we have been busy measuring and solving problems involving mass and volume. In English, we have been learning about the different features needed to create an interesting report. We have also been exploring magnetic materials, creating wartime aeroplanes and learning how friction can slow down movements.	Brodie & Jessica
Owls	In Owls this week, we have enjoyed creating biographies on a person of interest from World War Two. We conducted our own research as a homework task before organising our facts and putting them into detailed paragraphs! In topic we have built on this by researching what rationing is and how difficult it was for our World War Two heroes. We used real rationing books to calculate how much it would cost to buy the ingredients and how much each family member would get.	Gracie Alex Cheyenne Molly
Peregrines	This week Peregrine class enjoyed an informative talk by Barney's uncle about World War II and they had the opportunity to look at aerial photographs that were used to identify crucial details to support Operation Overload. In P.E. they have been practising their athletic and rounders skill.	Matilda Mia Fred Connor
