

## Science at Goodrich CE Primary School

We aim to use Science to stimulate and excite children's curiosity about phenomena and events in the world around them as well as giving them the opportunities to develop their understanding and increase their knowledge. We aim to promote the development of enquiry, exploration and observation in a meaningful context. Science lessons encourage children to work collaboratively and independently to learn about the world around them.

## Science activities at home

 <p><b>Books for Topics</b> Recommended children's booklists sorted by age or topic.</p>	 <p><b>SCIENCE FUN FOR EVERYONE!</b></p>	 <p><b>WOW SCIENCE</b> Searching out the best primary science activities</p>
